

## **Statement of Guiding Principles**

This series of the board policy manual is devoted to the goals and objectives for the school district's business operations and non-instructional and/or auxiliary services that assist in the delivery of the education program. These non-instructional services include, but are not limited to, the school lunch program, transportation services, and child care. The board, as it deems necessary, may provide additional non-instructional services to support the education program.

It is the goal of the board to conduct its business operations and to provide non-instructional services in an efficient manner.
